Kids Around The Clock was established in 2000 by Managing Director Rashada Bashir, the service was run from the downstairs of her house in Baguley, after being unable to find child care that met her high standards and demanding hours so Kids Around The Clock was born.

It now has over 16 years' experience and employs over 25 members of passionate, qualified and experienced staff.

Kids Around The Clock provides child care for the busy parent / carer of today. We understand that the working hours have changed and not everyone will fit into the 9am to 5pm stereotype so what we offer is bespoke flexible childcare to meet the needs of the individual family.
